to the sound of surf beating on the front wall of her house. She had tried to drive out but before she could make it, the wind-driven water had cut off her escape route through the marsh with the rapidly rising water engulfing the road.

The police cruiser made the attempt to reach her and then police together with neighbor Ralph Cerulli in his 4 wheel drive truck made a second attempt which also failed. The Mattapoisett Fire Department Rescue Squad then made the try using their Ray Sled and were able to reach her and bring her in to safety. While these various tries were made, EMTs from both the police and fire departments stood by throughout the night in case of medical emergencies.

Cove Road at Angelica Point was overrun by the high tide and was washed out. Crescent Beach was overrun by the water and cut off from travel.

QUESTION:

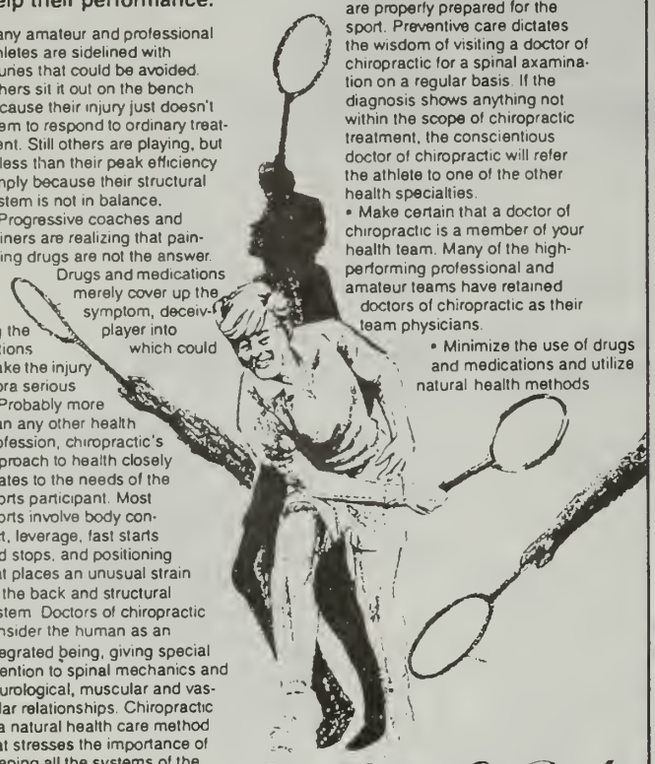
WHY SHOULD ATHLETES HAVE CHIROPRACTIC SPINAL MANIPULATION?

ANSWER: Because it can help their performance.

Many amateur and professional athletes are sidelined with injuries that could be avoided. Others sit it out on the bench because their injury just doesn't seem to respond to ordinary treatment. Still others are playing, but at less than their peak efficiency simply because their structural system is not in balance.

Progressive coaches and trainers are realizing that pain-killing drugs are not the answer. Drugs and medications merely cover up the symptom, deceiving the player into actions which could make the injury mora serious

Probably more than any other health profession, chiropractic's approach to health closely relates to the needs of the sports participant. Most sports involve body contact, leverage, fast starts and stops, and positioning that places an unusual strain on the back and structural system. Doctors of chiropractic consider the human as an integrated being, giving special attention to spinal mechanics and neurological, muscular and vascular relationships. Chiropractic is a natural health care method that stresses the importance of keeping all the systems of the body functioning efficiently, so the player enjoys peak performance, a minimum injury risk and fast recuperative powers.



Here's what you can do:

- Make certain that your athletes are properly prepared for the sport. Preventive care dictates the wisdom of visiting a doctor of chiropractic for a spinal examination on a regular basis. If the diagnosis shows anything not within the scope of chiropractic treatment, the conscientious doctor of chiropractic will refer the athlete to one of the other health specialties.
- Make certain that a doctor of chiropractic is a member of your health team. Many of the high-performing professional and amateur teams have retained doctors of chiropractic as their team physicians.
- Minimize the use of drugs and medications and utilize natural health methods

day unanimously approved the move of the nurse's office to the first floor office presently being used by the building inspector.

In recommending the switch to the board, Selectman James F. Huntoon said, "We should be sensitive to the needs of the senior citizens who find it difficult or impossible to climb the stairs for blood pressure readings by the nurse." Selectmen Chairman John N. DeCosta wholeheartedly approved, saying, "Building Inspector David Crook had no objection to the move." Although Selectman Frank M. Suzan was absent because he had to attend another meeting, he earlier endorsed the move to his fellow board members.

The move should be in place within two weeks, Executive Secretary Carol Adams said. The telephone equipment will have to be switched and, after that is done, the highway department crew will move the furniture and files.

District Nurse Ellen Boyd is very happy with the news. She said, "We have thought about this necessity of first floor access to seniors for a long time - this makes a lot of sense for those having difficulty climbing stairs. Many times I have had to take the blood pressure of seniors in the Town Hall lobby, and this can be embarrassing. I'm sure many seniors will applaud this move to the first floor."

Mrs. Boyd said that because the first floor office is slightly smaller she may have to put some of the files in storage in the Town Hall.

She noted that during the fiscal year July 1, 1985 to June 30, 1986 there were 936 office visits, as opposed to the previous year with 655 visits. "We may see that number increase with the office on the first floor," she said.

Building Inspector David Crook said he has no problem with the move. "I feel it's a good move and will be a lot better for all concerned."

In other business, Selectmen:

RECEIVED AN UPDATE on the progress of SEMASS - waste to energy construction of the plant in Rochester. Several months ahead of the contractor's originally anticipated schedule, the steel for the turbine house structure was completed to the roof before Christmas and the construction of the boiler house began December 12th.

During January a portion of the receiving building area will be covered with an inflatable cover so that work on the floors can continue unimpaired by winter weather. Foundations for the air pollution

WERE NOTIFIED by Police Chief James F. Moran that Officer Kenneth R. Pacheco has submitted his resignation, effective January 31. Selectmen accepted the resignation with regret and commended Pacheco on his 13 years of service, especially with the Harbor Patrol and the annual Halloween Parade. They agreed to retain Pacheco as a reserve officer part-time, as recommended by Chief Moran.

Officer Pacheco said in his letter, "I feel that other interests I have undertaken have made it impossible for me to continue on a full-time basis. However, I do wish to continue as a part-time officer. This was a difficult decision for me as I enjoy serving the Town of Mattapoisett and its citizens. It has been an enjoyable time for me, and I hope the town feels that I have served well. I have made a lot of friends through the years and feel that I have made a contribution to the town. I will always hold a high respect for the town."

KONICA MG

The "hottest"selling item in our store this Christmas season, by a wide margin, was the KONICA MG. This mighty mite camera (just a little larger than a pack of cigarettes) features auto-load, auto-focus, auto-flash, auto-rewind.

You, literally, just point-and-shoot and you get crisp color, black & white, or slides from 35mm film. If you're not thrilled with the pictures you're getting, THIS is the camera for you...and the price is right.

Still just $139.95

Those of you who were lucky enough to receive one as a gift will be happy to know that (finally) we were able to locate a supply of "add-on" telephoto lenses. They're now in stock at just $32.95. We'll be happy to demonstrate the camera and lens for you anytime.

Mattapoisett Historical Society

APPOINTS CURATOR

The Board of Directors of the Mattapoisett Historical Society announces the appointment of Anne Lima as Curator of the Museum and Carriage House located at 5 Church Street in Mattapoisett. Formerly Librarian of the Mattapoisett Public Library, Mrs. Lima is well-known in the community.

One of the first projects of the new Curator will be a comprehensive inventory and cataloging of the collections in the Museum. The Museum is known for its exhibits which demonstrate the life and culture of this New England village prior to the changes wrought by the great wars of the 20th century.

Under the guidance of Mrs. Lima, it is expected that the resources of the Museum will be more available to members and to the public. One special program for the Spring season has already been announced. On March 19th Mr. George Avila will present an evening program on Captain

Machacam Club

The February meeting of the Machacam Club will be held February 4th. If you plan to attend and have not received a telephone call, please call John Gibbons at 758-2669 or Franklin Harriman at 758-3725. This is very important as we must have an accurate count to order the meals.

The speaker for the evening will be Mr. Francis C. Rowland. The topic of Mr. Rowland's talk will be Captain Charles Bryant, a Mattapoisett sea captain. Captain Bryant was appointed by the Secretary of the Treasury as the first provisional governor of Alaska, and served for a period of ten years.

He retired to Mattapoisett and resided at the present Mattapoisett Inn.

Podiatrist at Village Court

Dr. Robert Cinglolani, Podiatrist, will be seeing Mattapoisett residents at Village Court, 1 Acushnet Road on February 4th by appointment. To make an appointment or for more information please call the Council on Aging at 758-3758.

Well-Child Clinic

Well-Child Clinic, sponsored by the Marion Visiting Nurse Association, will be held on TUESDAY, FEBRUARY 3, at 9 a.m. at the Association Offices in Sippican School, Marion. For an appointment or information call 748-1020.

Mattapoisett Council on Aging

In the Presto Press issue of January 14th we listed the Big Bus trips scheduled for the early months of 1987. We wish to especially emphasize our first three-day trip -- the St. Patrick Party, March 13-15, at the Treadway Cromwell Resort in Connecticut. We inadvertently failed to mention the deadline for reservations and the $25. deposit, which should have been January 13th. If you plan to go, please get your reservation and $25. payment in as soon as possible. This will be a very enjoyable and relaxing weekend. All activities take place in the Resort, so outside weather conditions will not interfere. We wrote in some detail about the planned activities (see Presto of January 14th), but a more complete brochure is available at the Council on Aging office.

Please remember to phone (758-3758) or stop off at our office in the Town Hall Monday through Friday between the hours of 9 a.m. and 12 noon to make your reservations for

Brandenburg Concerto No. 4 by Johann Sebastian Bach and Vivaldi's classical guitar concerto with Michael Gendron, soloist. The soloists for the Brandenburg Concerto are John Gomes, violin; Linda Works, flute; and Wendy Rolfe, flute.

Tickets for the concert are $4.00 and $3.00 for students and seniors. The tickets may be purchased at the door. For information about the concert please call 758-4693.

Reminder for Pet Owners

IT'S BITTER COLD

To all animal owners - It is far too cold for animals to remain outside at night when the temperature is as low as it has been recently. Please take your dog and cat inside to sleep and daytimes check the water dish to see that is not frozen. It's simple humanity to protect your pet from the cold. It's also a State law. There is a $500. fine for neglect of a pet in the bitter cold.

Basketball Shoot-Out

TO BENEFIT EASTER SEAL SOCIETY

Old Rochester Regional High School will participate in a Boston Celtics Easter Seal Basketball Shoot-Out on Thursday, January 29th. The event is part of a statewide promotion, sponsored by Zayre, to raise money for Easter Seal services for people with disabilities.

Kevin McHale of the Boston Celtics is honorary chairman of the event and will present autographed Celtics basketballs to the statewide winners at a Celtics game on March 20th.

Each Old Rochester Regional student participating in the Shoot-Out asks friends, neighbors, and relatives to pledge a specific amount for each basket he makes. During the event, under the supervision of his coach, he shoots baskets for three minutes and collects money for Easter Seals based on the pledges he received.

All proceeds from the event are used to fund Easter Seal services for people with disabilities. These include therapeutic swim programs, stroke clubs, therapy services, an equipment loan program and Easter Seal Home Health Care.

Cardinal-Titmouse-Mockingbird Census

Join the Massachusetts Audubon Society for the 24th Annual Cardinal-Tufted Titmouse-Mockingbird Census. On February 14th and 15th participants are asked to observe and record the number of these three species around their neighborhoods and backyards.

Prior to 1957, cardinals and tufted titmice were rarely sighted north of Connecticut. These species have become familiar winter residents in New England, and their population has increased annually. Since the beginning of the census in 1963, totals reported were limited by such factors as numbers of observers and weather conditions during the count weekend.

Another ornithological phenomenon is the northern spread of mockingbirds which were relatively scarce in New England prior to 1969. They have become established as permanent residents, and were added to the count in 1974.

expansion of these species are varied. Hypotheses include such factors as increase in food supply due to suburban plantings and bird feeders, and increased availability of roosting and nesting sites in backyard shrubs.

The Massachusetts Audubon Society provides an information sheet with instructions, identification tips, and behavioral notes for the three census species. Participants are instructed to record on a special data card the maximum number of each species seen at any given time during the count weekend.

To receive a census information sheet and a data card, send a self-addressed, stamped envelope to: CTTM, Massachusetts Audubon Society, Lincoln, MA. 01773.

Presto Friends:

20% to 85% OFF

WOW!!! I can't believe it ... how exciting.

This type of merchandising amazes me, makes me angry, and totally destroys the credibility of myself, other true jewelers, and the Jewelry industry. The fact is you have a jewelry item that sells for $100.00, normally every day. So now the merchandiser (not "jeweler") says he is going to put it on sale for 50% off. Now it sells for $50.00. The store must have an overhead, such as labor, rent, lights, heat, fixtures, advertising, etc., etc. So what did the merchandiser actually pay for the item? Did he make a lot of money at full price? Was it ever sold for $100.00? The answer is NO, it never sold for $100.00, and if you compare the price of that item with the everyday prices in my store or any legitimate Jeweler, you will find our price lower than their sale price. Ever get 50% off dinner at a restaurant, or 50% off a gallon of milk or a new car? NO is again the answer.

To be sure of what you're buying and that you are getting full value for your dollar, deal only with a Reputable Jeweler.

Financial Aid

INFORMATION AVAILABLE

This is the time of year when students and parents become concerned about the cost of higher education. For many individuals and families, the issue of college costs is an ever present question when going through the college application process. This applies to both the traditional college age student or the adult learner who would like to return to school.

According to Bruce Tamlyn, Director of the Educational Opportunity Center, there is a way to pay for college, vocational, or technical school education.

"There is financial aid available for those who need it," Tamlyn said, "and this money is not just for the traditional college age student, but can be used by any age individual who does not already have a bachelor's degree." Tamlyn indicated that more and more adults are returning to school in order to take the necessary courses or skills needed to gain employment or improve their current employment situation.

Grand Knight Rev. Yurco continued, "On January 22, 1987, the 14th anniversary of the United States Court's decision legalizing abortion, our CRUSADE FOR LIFE begins. We are alive with the talents and energies of many members. It's time now, that our membership of over 56,000 in Massachusetts direct these energies into an all-out campaign to recruit new members who will help us win a decisive victory over abortion."

Quoting his Holiness Pope John Paul II he said, "Human life is precious, because it is the gift of a God whose love is infinite; and when God gives life, it is forever." Supreme Knight Virgil Dechant declared, "Together, the Knights of Columbus can mount a CRUSADE FOR LIFE that will not only bring new members into the Order, but eventually restore life, the first liberty, to the littlest, most defenseless of us all, the unborn."

Grand Knight Rev. Yurco concluded, "State Membership Director Brendan D. us in this fight for LIFE as the FIRST LIBERTY and the right to life as a FUNDAMENTAL CIVIL RIGHT."

Other reasons why one may want to join the K of C is that the Knights are men of charity, brotherhood and fraternity. We stand for friendship, families and good times. We're always helping to make the world a better place. In the process we make our own lives richer and more rewarding.

Consider the following: a membership of 1.4 million with 56,000 in Massachusetts; our devotion to the Blessed Virgin under her title, "Our Lady of the Rosary", presenting a Rosary to each new member; donating $150,000 each year to the Pro-Life committee of the U. S. Bishops' Conference; presenting the Holy Father over $1. million each year for his personal charities; in 1986 financed the cost of the restoration of the facade of St. Peter's Basilica in Rome; pay for the uplink cost to the global satellite for televising of papal ceremonies, especially at Christmas and during Holy Week.

The K of C provided the leadership which finally succeeded in having the words "Under God" inserted in the Pledge of Allegiance to the American Flag; that the Fourth Degree presented the Statue of Liberty-Ellis Island Centennial Committee with $1 million towards the restoration project; that the K of C has granted over $64 million in student loans for higher education; established a million dollar trust fund for sons or daughters of Brother Knights killed or disabled in recent wars, and for children of policemen and firemen killed in the line of duty by violence.

Our Charity endeavors are tremendously rewarding through our Columbus Day Charity Drive. We

Computer Workshop

Plymouth County's Extension 4-H Division has announced a workshop on computerized record keeping to be held on February 5th at the Extension Office in Hanson.

According to Robert O. Mott, Plymouth County 4-H Agent, many families have small home computers. Some families are using them for games while others may have purchased a computer and seldom use it. This workshop is designed to help anyone make use of their computer for home record keeping or to keep 4-H records. The workshop will be an excellent resource for anyone considering the purchase of a home computer.

To register to attend the workshop call Plymouth County Cooperative Extension at 293-3541 or write P.O. Box 658, High Street, Hanson, MA. 02341.

4-H and Extension Programs are open to all. For more information on this or other 4-H Programs, contact the Cooperative Extension.

ing in connection with the minor in gerontology the university plans to offer this fall.

Flemming chaired the 1971 White House Conference on Aging and has held several positions in the federal government. He is a long-time advocate of a national health care insurance program.

The addition of gerontology -- the study of aging -- to SMU's curriculum reflects the increasing awareness of the impact older persons have on American society, says SMU Dean Joyce Y. Passos. Persons over age 60 comprise roughly 12 percent of the population, and are the fastest growing age group in the country. The significance of this growth will be most dramatic in the 21st century, as the "baby-boomers" reach retirement age.

As the proportion of elderly persons rises, the demand for new services for them is expected to accelerate, Dean Passos adds. That demand will require more trained personnel in areas as diverse as health care, public planning, and arts and recreation. The gerontology minor will be a multi-disciplinary

quiry into Health in America. His career in public service is more than 40 years old. From 1958 through 1961 he was secretary of what was the Department of Health, Education and Welfare. From 1973 through 1978 he was the U.S. Commissioner on Aging, and from 1974 to 1982 chairman of the U.S. Commission on Civil Rights.

Speaker for the second lecture, on March 19th, is Dr. James Schulz, economics professor at Brandeis University and authority on the economic aspects of an expanding older population.

Schulz will speak on "Aging and the Crisis of the Welfare State". Schulz is a past president of the Gerontological Society of America and in 1983 won the prestigious Kleemeir Award for outstanding research in aging. He has written more than 70 articles, papers, and books on the subjects of pensions, retirement incomes, social security systems, and the economics of aging.

The third speaker, on April 22nd, is nutrition expert Miriam Elizabeth Nelson, lecturing on "Bone Health, Calcium, and Exercise". Ms. Nelson is a doctoral fellow at the Human Research Center on Aging at Tufts University, and is doing research on bone health of women of all ages. She holds degrees in nutrition and has written extensively on the subject.

All lectures begin at 3:30 p.m. and will be in Room 153 of the Visual and Performing Arts College. For further information call 999-8578.

imaging program. The afternoon will feature brief lectures by Radiology staff, including a video mammography and its importance, and tours of the new mammography suite. Literature describing the symptoms of breast cancer and the benefits of mammography will be distributed and light refreshments will be served.

Tobey's newly renovated mammography suite offers patients privacy, comfort, and the latest technology in low-dose mammography. A mammogram is a safe breast x-ray which can detect breast tissue abnormalities at a very early stage when treatment is more successful.

According to American Cancer Society guidelines, women should have a "baseline" mammogram between ages 35 and 40 for later comparison. Over age 40, monthly BSE, yearly physician examinations, and a mammogram every one to two years is recommended. Women over fifty years of age should routinely have a mammogram every year. Women in high risk categories, such as those with a previous history of breast cancer, may be advised to have yearly mammograms at an earlier age. The American Cancer Society further advises women to perform a breast self-examination (BSE) monthly. Tobey's breast-imaging program educates women in proper BSE, using a simple, three-step procedure.

American Association of Blood Banks.

Accreditation follows an intensive on-site inspection by specially trained representatives of the Association and establishes that the level of medical, technical and administrative performances within the facility meets or exceeds the rigorous standards set by the AABB. By successfully meeting these requirements, St. Luke's Blood Bank joins more than 2,200 similar facilities across the United States and abroad that have earned the Accreditation rating and recognition.

The AABB's inspection and accreditation procedures are voluntary. It is not legally necessary for a blood bank or transfusion service to be accredited. Accreditation represents a level of professional and medical expertise that meets and exceeds government regulations.

St. Luke's Blood Bank is an all volunteer program. Anyone wishing to become a blood donor can call the Blood Bank at 997-1515, extension 2320.

Art Gallery, is a major examination of Americn fiber art from the 1950s to the present. This critically acclaimed, two-part exhibition makes its only east coast appearance at the Brockton Art Museum/Fuller Memorial, Brockton, MA. from January 16 through March 22nd, and at the DeCordova Museum, Lincoln, MA. from January 24 through March 22nd. Revolution, presented by DeCordova, is an invitational exhibition of the nation's historically important fiber artists. Evolution, presented by the Brockton Art Museum, is a juried exhibition of contemporary works in fiber.

Revolution documents the creative efforts of eighteen artists who made significant contributions to the development of fiber art. Using the skills and techniques of traditional craftsmen, these pioneering artists made discoveries in concert and style which established fiber as a fine art medium. Collectively, their efforts represent the undisputed classics of the fiber revolution.

On view are Ed Rossbach's non-functional baskets; suspended weavings by Lenore Tawney exposing the structure of the woven grid; free-

standing form construction of non-loomed, knotted fiber by Claire Zeisler; Neda Al-Hilali's billowing mixed-media wall pieces; Dorian Zachai's "Woman", one of the earliest fiber sculptures; an appliqued fabric montage by Jean Stamsta; Ted Hallman's enveloping "Meditation Environment"; political statements fashioned from cotton army shirts by Sheila Hicks, and Gerhardt Knodel's monumental "44 Panel Channel".

Evolution, on view at the Brockton Art Museum, illustrates the diverse and vital state of contemporary fiber art today. The jurying process which took nearly a year to complete, was executed by Mildred Constantine, writer and Independent Curator, Mary Jane Jacobs, former Chief Curator, Museum of Contemporary Art, Chicago and Neda Al-Hilali, fiber artist. The final selection of work by forty-two artists chosen from a group of eight hundred fifty nationwide competitors defies tradition and encompasses a broad diversity of aesthetic concerns.

The works included in the Brockton Art Museum exhibition cover the full range of fiber art.

According to DeCordova Director Paul Master-Karnik, "FIBER R/EVOLUTION champions the aesthetic achievements of fiber art as it transcends its traditional connotation of craft and becomes a formal sculptural medium of great power and beauty."

Due to its monumental scale, FIBER R/EVOLUTION affords the DeCordova and Brockton Museums the opportunity to maximize resources and present the historical and contemporary aspects of fiber art. DeCordova and Brockton have combined initiatives to create enhanced programming which links both exhibitions through individual lectures and workshops and jointly sponsored events.

Richard Ressmeyer, Director of the Brockton Art Museum, describes FIBER R/EVOLUTION as "a symphonic achievement, here given voice on two stages".

Glass Museum

HILDA SILVA FUND STARTED

The New Bedford Glass Society notes with sorrow the passing of Hilda Silva on January 13.

Mrs. Silva had been a Society member since 1980 and was one of the Museum's most hard-working volunteers. Her genuine love of beautiful glass, and boundless enthusiasm, won the affection of her fellow workers and hundreds of Museum visitors. In 1982 she was honored as the Museum's "Volunteer of the Year" by the Chamber of Commerce, and won the Museum's Membership contest in 1983, soliciting over 100 new members. With her husband, John, Hilda was one of the Museum's great assets.

A fund has been started in Hilda's name, which will be used to acquire glass for the Museum's permanent

Creative Workshop

FOR GRADES 6-8

"Creative Visions", a workshop for students in grades 6 through 8 which links dance with the visual arts will be offered February 28th through May 2nd by Southeastern Massachusetts University.

The workshop will encourage self-expression by a series of activities, such as drawing and sculpture, designed to strengthen and interrelate movement and the visual arts. No previous experience in either dance or the visual arts is required. It will be held on Saturdays from 10:30 a.m. to noon in Room 263 of the College of Visual and Performing Arts at SMU.

Instructors will be Beth Easterly and Barbara Ryan. Ms. Easterly has a master of arts degree in dance education from George Washington University and has taught in Virginia and Rhode Island. Ms. Ryan, a painter, has a bachelor of fine arts degree from Swain School of Design, where she has taught, and is pursuing a master of art education degree at SMU.

The workshop is presented by SMU's Projects for Higher Learning Potential program, the Division of Continuing Studies and the Art Education Department. It costs $57. and class size is limited to 20. To pre-register telephone the Spotlight Program at SMU, 999-8899.

of Somerset who earned a Ph.D. in computer music from the University of California in San Diego. "Compositionally, I am concerned with the extension of traditional vocal, instrumental and formal resources via technological means," he writes of his music, represented in the exhibit by "Two Movements in C".

Robert Train Adams and Vincent F. Lut, associate professors of music at SMU, are represented in the exhibit, as is Gerald M. Shapiro of the Brown University music faculty.

"The Garden of Earthly Delights" by David Hoffman, a 12-minute experimental and educational color sound film in 16 mm will also be shown.

mation", enthusiastically received by critics the world over. Tickets are priced at $12.00, $10.00 and $8.00 with a $2.00 discount for senior citizens and students.

The phrase "theatre d'animation" was coined by the company's founder, Philippe Genty. It is puppetry and illusion in the spirit of the Muppets, the Famous People Players, and Mummenschantz. To this, Genty adds sophisticated, universal themes. He explains, "The themes are often universal like death, birth, and love; also internal conflicts of specific figures; for example, the violinist who wants to find glory but becomes its victim, or the Pierrot who prefers suicide to living a life where he is forever manipulated."

The company includes Genty, Alain Clement, Agnes Neel, Patrick Henniquau, and Emmanuel Plassard. The program notes explain their beginnings as follows: "The company was looking desperately for a name ... and Philippe Genty was desperately looking for a company." Actually, the company began in 1967 with a UNESCO world tour which led to numerous film awards and a successful Broadway run for the group in 1983.

Genty's success is related to his perfectionism. When a vignette is created, a script is written and the

characters designed. Each marionette must be expressed in movement; each movement must have significance. Once the puppets are developed, the music and sound effects are integrated into the story. With three people working on a single marionette during the performance, the movements must be carefully choreographed. Pierrot, one of the vignettes to be performed at the Zeiterion, thus took a year to evolve; the Ostrich Ballet, also a part of the program, took twice that long.

The Boston Globe said Genty "amazes"; the Los Angeles Times called it "sheer entertainment"; the New York Times exclaimed, "You will be enchanted!"; and Jim Henson, creator of the Muppets, proclaimed, "Philippe Genty is one of the most talented showmen of the puppet theatre." La Compagnie Philippe Genty will be an evening of unique, outstanding family entertainment.

The Merrill Lynch International Series continues on Thursday, April 2nd, with the Hungarian State Folk Ensemble, a company of 100 dancers, singers and musicians.

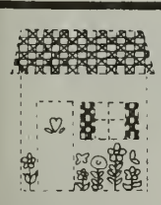
WINTER PROGRAMS

Our next "WINTER NATURE DISCOVERY WALK" will be held on February 7th at 10:30 a.m. This can be an extremely interesting time of the year to attend one of our walks. The leaves are now off the trees and this increases the visual abilities to note changed aspects of the woods and fields. At this time of the year it is possible to see hawks, signs of fox and other small animals. If there is snow or mud, we can check for animal tracks. Come and join Bob Bailey and find out all the interesting aspects of the Museum's fields, woods and ponds at this time of the year.

In-house programs being offered are as follows:



Country Quilt and Cross xxx Stitch

On Saturday, February 7th, from 1 to 2 p.m. we offer a program that will create wonderful Valentine cards for that special someone in your life, be it family member or a secret someone. Valentine pop-ups is offered for children aged 6 to 8 years and is limited to 10 children. The same Saturday, from 2:30 to 3:30, we offer Window Designs. We will use small plastic bits and create a design which is then melted to hold pieces and a hanger added. This will then be ready to be placed in a window for a sun catcher.

This is offered for children ages 7 years and up. Cost of this program is $4. for members and $5. for non-members, and is limited to twelve children.

Upcoming will be information on our VALENTINE DAY PARTY on February 14th from 2 to 4 p.m.

See you at the Museum!

Tobey Hospital

COUNSELING PROGRAM

Area residents can take advantage of a new counseling program for individuals and families who are having difficulty with pregnancy and parenting issues.

COPE (Coping with the Overall Pregnancy and Parenting Experience) is jointly sponsored by Tobey Hospital in Wareham, and the area Child Abuse Prevention Committee. It is designed to assist residents of Wareham, Marion, Mattapoisett, Carver, Rochester, Bourne, and the upper Cape.

Trained professionals offer counseling and education for issues ranging from teenage pregnancy and single parenting to couple relationships and child abuse. The majority of services are reimbursed by third party insurance and COPE offers a sliding fee scale for clients who are not covered by insurance.

"Pregnancy and parenting are often joyful experiences but they can also produce a great deal of stress," said Barbara S. Smith, LICSW, director of Social Services at Tobey. "COPE can help families and individuals deal better with these stresses."

In addition to the services COPE

provides, counselors make referrals to a number of community resources, such as early intervention programs, school system programs and others. "COPE can serve as a link in coordinating services," said Ms. Smith.

COPE counselors in the area are Bettine Fitzgerald-Costa, ACSW and Barbara Franconi Smith, ACSW. A graduate of Simmons College with a Master's degree in Social Work, Ms. Fitzgerald-Costa is in private practice in Fall River. She formerly was a social worker at Pawtucket Family Services and Corrigan Mental Health Center in Fall River.

Ms. Smith earned a Master's Degree in Social Work from Boston College. She has worked as a social worker at Pawtucket Family Services and most recently was senior clinical social worker at Corrigan Mental Health Center.

Both have received special training for the program through the central COPE agency in Boston. Founded in 1972, COPE has served over 10,000 teens and adults in the Greater Boston area. The new
